

DARRON ROBINSON

SENIOR PROGRAM MANAGER | PROJECT GOVERNANCE | PROJECT QUALITY ASSURANCE

(702) 249-0596 | darronr1090@gmail.com | Northern California | Remote / Minimal Travel

EXECUTIVE PROFILE

Senior program, project quality, and compliance leader with 12+ years of experience supporting utility, federal, infrastructure, environmental, and manufacturing programs, including quality and compliance operations across a \$250M+ federal project portfolio. Builds repeatable review processes, maps workflows and decision paths, evaluates project documentation against governing standards, and turns findings into clear corrective actions and leadership-ready reporting. Direct PG&E program experience and a strong record coordinating owners, government representatives, contractors, inspectors, project controls, and field teams through planning, execution, review, and closeout.

SELECTED QUALIFICATIONS

- **PROJECT QUALITY REVIEWS:** Independent assessment of project plans, schedules, scope records, change documentation, risk items, quality records, corrective actions, and approval evidence.
- **PROCESS MAPPING & STANDARDIZATION:** Current-state/future-state workflow mapping, review checkpoints, roles and handoffs, procedures, checklists, escalation paths, and repeatable reporting.
- **GOVERNANCE READINESS:** Pre-review gap identification, owner/government acceptance preparation, deliverable traceability, issue closure, and practical recommendations for project teams.
- **EXECUTIVE & PORTFOLIO INSIGHT:** Concise summaries of findings, recurring deficiencies, systemic trends, risk exposure, and improvement opportunities for leadership and stakeholders.

CORE EXPERTISE

Project Governance & Readiness • Project Quality Assurance • Project Controls Documentation • Process Mapping / Definition • Scope, Schedule, Cost, Risk & Change Control • Charters, PMPs, RACI & Decision Governance • CPM / Baseline Schedule Review • Corrective Action & Issue Closure • QA Checklists & Scoring Criteria • Executive Reporting • Federal & Utility Capital Projects • Contractor / Stakeholder Coordination

PROFESSIONAL EXPERIENCE

Project Safety & Compliance Consultant

Blue Yonder | VA EHRM Infrastructure Program | Vancouver, WA | Aug 2026 - Present

- Support documentation readiness and compliance control for VA electronic health record modernization infrastructure work, coordinating with project managers, the superintendent, quality control, and the Contracting Officer's Representative.
- Review project requirements and field documentation for completeness, traceability, and alignment; identify gaps, assign follow-up actions, and maintain decision and status visibility through standardized reports.
- Developed a structured site safety package and reporting workflow covering roles, subcontractor expectations, daily records, inspections, and action tracking.

Quality Control Manager / Project Manager

MVL | Federal Infrastructure Projects | Phenix City, AL | Aug 2023 - Present

- Managed federal construction and infrastructure work from planning through closeout, integrating quality control, schedules, documentation, procurement, inspections, corrective actions, and contract compliance.
- Evaluated project deliverables against contract requirements and owner expectations; tracked deficiencies to closure and maintained auditable evidence of review, approval, and acceptance.
- Coordinated subcontractors, inspectors, government representatives, vendors, and field personnel while translating project risks and documentation gaps into clear actions for responsible parties.
- Supported progress reviews, schedule coordination, material tracking, project reporting, and closeout readiness across multiple concurrent priorities.

Site Safety & Compliance Manager

Safety Unlimited | U.S. Department of Energy Project | North Las Vegas, NV | Jan 2022 - Oct 2023

- Directed compliance and operational assurance activities on a major DOE construction project, maintaining inspection, reporting, corrective-action, and records-management systems.
- Reviewed field and compliance documentation, escalated material gaps, and worked with management, contractors, and government representatives to resolve issues before formal review while supporting operational improvements.

Quality Manager / Compliance Manager

Multiple Federal Infrastructure & Environmental Projects | United States | 2019 - 2022

- Managed quality and compliance operations across multiple federal projects valued at more than \$250 million, leading multidisciplinary inspection, reporting, contractor-oversight, and execution teams.
- Mapped existing compliance and reporting workflows, defined review checkpoints and ownership, and developed procedures, checklists, and tracking systems that improved consistency and visibility.
- Performed readiness-focused reviews, identified recurring gaps, monitored corrective actions, and provided leadership with project-performance findings and improvement recommendations.

Environmental Consultant

Esseltek | FEMA / Cal OES Recovery Operations | California | 2021 - 2022

- Coordinated wildfire-recovery field operations and stakeholder communication while maintaining GIS reporting, compliance records, field documentation, and regulatory-assessment evidence.

Utility Forestry Operations Consultant

Mountain Group Engineering | PG&E Program | California | 2019 - 2020

- Performed vegetation-management assessments and field inspections supporting electric utility infrastructure, operational planning, risk reduction, GIS tracking, and geographically distributed reporting.

Environmental Project Supervisor

Tetra Tech / Arcadis | California Wildfire Recovery Programs | California | 2015 - 2019

- Supervised large-scale remediation and recovery work, aligning crews, subcontractors, inspectors, agencies, and property owners around schedules, documentation quality, compliance, and issue resolution.

Additional Experience - Chemical Production Technician

Channel Chemicals | Gulfport, MS | 2012 - 2015

- Supported controlled batch production, quality specifications, inventory, scheduling, shipping, fulfillment, and manufacturing records.
